MEMORANDUM FOR: SR/COP/PP

SUBJECT: Aerodynamics/Political and Propaganda Action

Purpose of the Action

The Aerodynamic Psychological Panel has completed the preparation of the first issue of the English language publication dedicated to the promotion of nationalism as an ideological issue. The policy and the thinking behind this publication could be summarized as follows:

DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCES/METHODS EXEMPTION 3828
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2007

a. Soviet propaganda at the present time is making a concerted

effort for the infiltration of the Afro-Asian countries and the

Middle East. This propaganda attempts to present the USSR in the

role of protector and liberator of the oppressed and the under-

developed nations in the Afro-Asian continents.

b. This drive is calculated to undermine the prestige of the

United States and its chief allies, Britain and France, by making

a reference to the "capitalistic colonialism" and by exploiting its

known evils of the past.

c. Soviet propaganda spares no effort and no ammunition in order

to deceive and to beguile the countries and the nations which they are trying to infiltrate. Soviets have scored a considerable degree of success in the Middle East, but their drive could be efficiently countered by rallying the forces of intellectuals in the Afro-Asian countries who are conscious of the evils of the Soviet encroachments.

d. The ideologic and the social forces representing the true patriotic nationalism form the antithesis of the Soviet communist ideology. This ideology is totalitarian and centralistic in its form and concept, whereas nationalism embodies the individualistic characteristics of the country and people and therefore advocates freedom and decentralization.

e. The Soviet artful infiltration could be countered by a strong representation of the fact that the Soviet regime is an anti-nationalistic regime which has enslaved its own national minorities and made captive formerly independent nations in Europe and in the East.

f. The Ukrainian national movement represents the strongest and the most articulate minority in the USSR and, therefore, it

logically could bear witness to the fact that the USSR is the largest and the most vicious colonial power at the present.

Summary

It is requested that an authorization would be given for financing and carrying out the following activities by the aerodynamic project:

a. To provide the necessary financial assistance for publishing the first and the second issue of the English language magazine, "Prologue." (The copy of the magazine is Attachment "A" to this paper.)

b. To sponsor and finance the trip to the Middle East by members of the group. The details of this trip are described in Attachment "B".
